WHY DO IT?
- In the same network in the same market, there is a BIG cost difference between providers.
- Patient Care’s Rewards program will provide a financial incentive for members to choose the lowest cost/highest quality provider for elective health care procedures.
- The Rewards program will measurably reduce health care costs.

Expected Return on Investment = 239%

Example from a Patient Care group:
The group provided their members with 20% of the savings up to $1,000 for choosing a lower cost option on their transparency report.

AFTER SIX MONTHS . . .
Employee rewards: $3,700
Employer savings: $42,500 ($38,800 after rewards)
Employee savings: $2,800
Transparency Reports: 51 created

HOW DO YOUR MEMBERS GET REWARDED?
1. Member calls Patient Care to compare costs before scheduling ANY elective procedure.
2. Patient Care provides total and out-of-pocket costs by procedure within 7 days.
3. Member chooses a lower cost provider based on the 3 facilities compared.
4. Member submits their Explanation of Benefits and Reward (authorization) form to Patient Care within 180 days.
5. Member receives 20% of the savings, up to $1,000.

- Patient Care calculates the savings and sends the employer notice of amount to be paid to Members.
- Companies with over 10 employees are eligible.
